

LO: to make careful observations and take measurements using standard units.

Scrumptious Science

Making ice cream
in a bag.

<p>Put</p>  <p>Place half a cup of milk in a ziplock bag.</p>	<p>1</p> <p>Add</p> <p>1/2 teaspoon vanilla and</p>  <p>1 Tablespoon sugar</p>	<p>2</p> <p>Zip-lock the bag tightly. Try to get most of the air out.</p>  <p>Put the baggie into another zip-lock sandwich and seal it tightly.</p>
<p>Put the sandwich bag</p> <p>into a gallon sized zip-lock bag. Add ice to fill the large bag</p> 	<p>4</p> <p>Put 2 Tablespoons of salt into the large bag</p>  <p>Seal the large bag tightly.</p> <p>Shake the bag for 8 minutes</p>	<p>5</p> <p>Take the bag in the middle out.</p>  <p>Carefully open the bag and put the ice cream into a bowl to eat.</p>

When you take the small bag out, you may want to rinse off the salt.

How did it work?
