

13.12.21

LO: Reading and writing coordinates

I can identify the x axis, y axis and origin

I know to read along the corridor and up or down the stairs

I understand how to use other coordinates to find missing values of other points

Teacher note:

1) What 3D shape will this net make?

2) Draw an irregular pentagon.

3) What fraction of a full turn is 45° ?

4) Work out the perimeter of the compound shape.

1) There are 6 sweets in $\frac{1}{2}$ of a bag.
How many sweets are there in a full bag?

2) $\square = \frac{3}{4} \div 2$

3) $2\frac{1}{3} - \frac{2}{3}$

4) $0.26 + 1.06$

1) Find the origin on the graph.

2) Label the x - and y -axis on the graph.

3) Which number represents the y -coordinate in the coordinate pair (5 , 7)?

What are the rules for reading and writing coordinates?

Label 1st, 2nd, 3rd and 4th quadrant

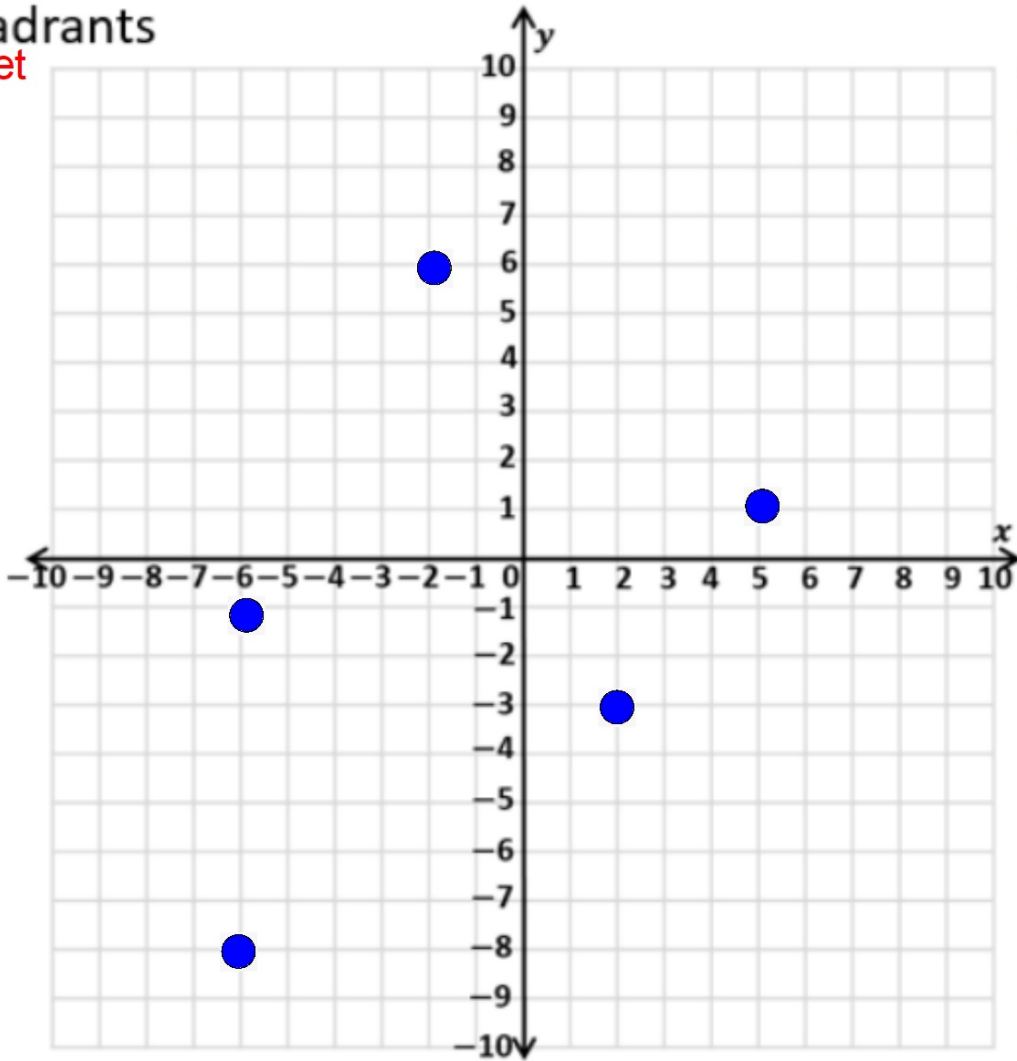

æet!

Write the coordinates for the letters

Help me plot points at (4,6) and (5, 0)

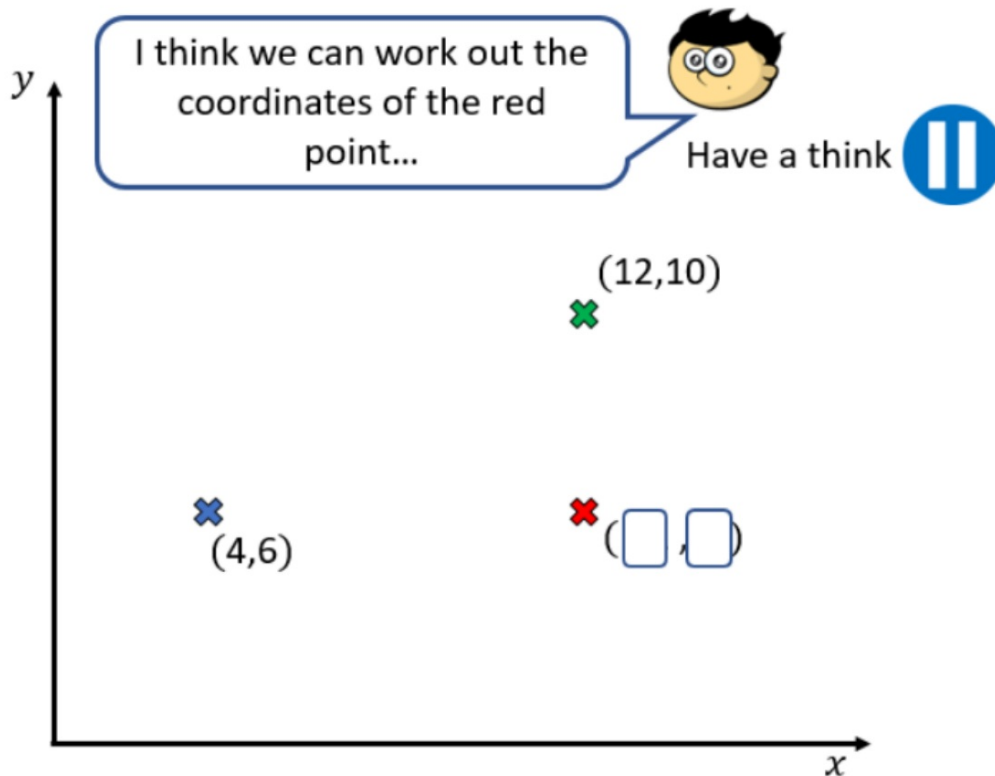

year 5 start task

adrants
sheet

Write the coordinate
for each point.

Now plot the points
the teacher tells you

The 3 points form 3 vertices of a rectangle.
What are the coordinates of the missing vertex?

y ↑

Have a think

An isosceles triangle is drawn on the axis.

What are the missing coordinates of the vertex?

Year 6 extension

Eva is drawing a trapezium.
She wants her final shape to look like this:

Eva uses the coordinates $(2, 4)$, $(4, 5)$, $(1, 6)$ and $(5, 6)$.

Will she draw the shape that she wants to?

If not, can you correct her coordinates?

A is the point $(0, -10)$

B is the point $(8, 0)$

The distance from A to B is two thirds of the distance from A to C.

Find the coordinates of C.

Year 5 extension

Which clue matches which coordinate?

Clue 1

My x coordinate is half of my y coordinate.

Clue 2

My y coordinate is less than my x coordinate.

Clue 3

Both my coordinates are prime numbers.
